

ASSET MANAGEMENT AND ENERGY PERFORMANCE POLICY

COLBUN IS A LEADING COMPANY IN THE ENERGY MARKET. OUR PURPOSE IS TO TRANSFORM ENERGY, IN BALANCE WITH THE PLANET, TO FUEL YOUR PROJECTS AND DREAMS. IN THIS REGARD, MANAGING OUR ASSETS—INCLUDING ENERGY PERFORMANCE—IS ESSENTIAL TO ACHIEVING THE CONDITIONS OF SAFETY, CONTINUITY, AND QUALITY OF ELECTRICITY SUPPLY.

THIS POLICY IS COMMUNICATED TO COLBUN EMPLOYEES, CONTRACTORS, AND DIRECTORS, AND SUBSIDIARIES, CONSEQUENTLY, WE ALL SHARE RESPONSIBILITY FOR IMPLEMENTING THE PRINCIPLES OUTLINED BELOW.

GENERAL PRINCIPLES

- **Create Sustainable Value:** We are committed to generating value (both short and long-term) and operational excellence for Colbun, its employees, shareholders, and other stakeholders, through strategic asset management planning and effective risk management.
- **Lifecycle Vision:** We manage and assess the impact of corporate decisions at every phase of the asset lifecycle to ensure they are consistent and integrated: strategic planning, design, construction, commissioning, operation, maintenance, renewal, and final disposal. These decisions must consider the economic, social, and environmental balance, as well as the cost, benefit, risk, and performance parameters of the assets throughout their lifecycle.
- **Energy Efficiency:** We recognize the importance of energy management for Colbun and our clients. Therefore, we promote energy efficiency and the responsible use of resources within our asset management practices.
- **Data/Information:** We are committed to managing asset-related data throughout their lifecycle on the platforms provided by the Company for this purpose, ensuring timely and high-quality information for decision-making processes.
- **Leadership:** To achieve asset management goals, each leader within the organization is responsible for ensuring the availability of the necessary resources, technology, and capabilities to implement asset management plans. This applies to all phases, with a consistent and integrated lifecycle approach for each asset.

- **Continuous Improvement:** We drive continuous improvement in our processes and activities by adopting leading industry standards and best practices, while also utilizing regular review and evaluation mechanisms with an innovative approach.
- **Regulatory Compliance:** We ensure strict adherence to current legislation, voluntarily committed obligations, and our internal procedures concerning asset management and energy performance.

Jose Ignacio Escobar T.

CEO, Colbun
